INTRODUCTION – About Us

Smart Technical & Maintenance Services LLC (SMARTECH) was established in 2011, and has grown rapidly into a medium size organization offering a wide range of expert services.

We strongly believe in building personal support with our customers to develop a better understanding of their requirements and expectation. We provide professional and quality services.

Our varied work force has the flexibility and experience to undertake project ranging from Minor Repair and Maintenance to Major Refurbishment, Equipments Maintenance, Project Management, Safety Consultation, Expert Engineering Advise, Maintenance and Inspection of Fire Fighting Facilities, Electrical Maintenance, Support to PTW System, Third Party Supervision/Inspections, Tank Cleaning, Pipe Line Pigging & Annual Maintenance Services and Documentations.

SMARTECH operates throughout UAE, Oman & Kuwait for quoted works. We employ an emergency team that operates 24 hours on normal and public holidays for attending emergency and breakdown works.

SMARTECH provides itself on providing professional and quality services in every type of job that we undertake. We employ trained and qualified staff under our direct control in all types of operations that we specialize in.

Our Vision is to expand our Engineering & Maintenance activities to various industries in UAE and other parts of the Middle East.

“A better way to build and maintain your facilities”

MESSAGE FROM CHAIRMAN

“Transparency in Quality and Standard is Core to Industrial Perfection.”

Our Experience covers a wide range of industrial complex, including major construction and maintenance works. Company services are modular in concept and can be tailored to exact needs of each individual client. Organizations are able to develop and strengthen multiple layers of core competencies to give them a sustained competitive advantage.

Company had experience and depth to handle any size of projects, yet is small enough to ensure that all projects receive personal attention of top management. We offer a range of high-value services including services in Project Management in Oil & Gas, Electro Mechanical, Maintenance of all kind of assets (Pipelines, Storage Tanks, Rotating Equipments) Qualified Manpower Supply, Erection of Heavy Equipment, Tank Cleaning, Erection of Scaffolding, Third Party Inspection Services and much more.

OUR VISION

Our Vision is to implement and maintain the highest levels of quality, integrity, dependability and efficiency in the services that we provide to our valued customer, uncompromisingly. Our services are of Goal Zero, because we care. We add value to everything we do. We care the best at what we do and keep getting better. We are audit ready everywhere, every day.

OUR MISSION

To be a leader in Oil & Gas Engineering business, with investment in advanced technology, equipment and people. Also to provide products and services that ensure high standards of customer satisfaction through well-established systems and management parties.

INFRASTRUCTURE

Our company was founded with a view to endowing our customers with optimum solutions to achieve consistent reliability, efficiency and performance. The products and services we offer, cater to a wide range of business sectors like Industrial and Oil & Gas Sector.

We are constantly in the process of updating our skills by adopting new technologies through our business partners. We firmly believe that diligent work will never go unnoticed.

Our top management provides a positive and proactive approach to the quality of all services. Unconditional commitment paired with qualitative services had become the dictum of our team.

“A better way to build and maintain your facilities”

INFRASTRUCTURE – AREA OF SPECIALIZATION

- Expert advice for Terminal Upgradation
- Mechanical & Civil Engineering Projects
- Project Management
- Testing & Commissioning, including Documentation
- Minor & Major Maintenance Activities
- Yearly Maintenance Contract; including Maintenance Excellence
- Electrical & Instrumentation Work
- Scaffolding Services
- Third Party Inspection and Certification
- Tank Cleaning
- Technical & Surveillance Inspection of Storage Tanks, Pipelines, Rotating Equipment, Gentries and related assets
- Fire Fighting – Testing & Maintenance Services
- Information Technology – IT Repairs & Services
- Marine Engineering & Repairs works
- Heavy Equipment Lifting & Erection
- Blasting & Painting
- Plumbing Works
- Manpower Supply & Transportation
- Civil Works – Interlock Works, Block Works, Door & Window Works Building Maintenance and Carpentry Works
- Inspection & Services of Overspill Protections
- Pigging and Cleaning Services
- Demolition Works
- Trading – Oil & Gas Accessories, Building Materials, Personal Protection Equipments (Safety Items) & All types of Hoses

KEY DIFFERENTIALS

The Most important differentials that SMART TECHNICAL & MAINTENANCE SERVICES LLC group offers are;

- Comprehensive range of Engineering Disciplines.
- Experience in dealing with International Clients.
- Professional Project Management.
- Highly Motivated Manpower.
- Proven Record of Dependability.
- Very Flexible and Understanding.
- High Level Track Records of Documentation and Previous Histories of Services
- 24 hours Emergency Services with highly competent staff.
- Training and Coaching of HSSE & Engineering Services.

AGENCY

- MO Valves
- Marine Hoses
- Gantry Hoses
- Import Hoses
- Scully System
- Electrical Heat Tracing System
- CP system
- Pressure Relief Valves
- Pressure Gauges
- 3rd Party Inspections
- Sub Sea Engineering
- Meters
- Loading Arms
- Marine Paints
- Pipeline Inspections
